Frequently Asked Questions

The Dubuque Regional Humane Society (DRHS) operates as a no-kill, open admission animal resource and adoption center. We never euthanize healthy, treatable animals for lack of space, length of stay, or any other reason not in their best interest. We strive to affirm that the Tri-State area is a compassionate, humane, no-kill community.

Where does the DRHS receive funding?
The DRHS is an independent 501(c)3 non-profit organization. We receive funding through memberships, donations, sale of services, grants, special events, contracts for specific services, and to a lesser degree, adoption fees. We are not funded federally, by the state or county, and are not part of, governed by, nor do we report to any other national animal welfare organizations.

When did the DRHS become a No-Kill Shelter?
With numbers low enough in to qualify since 2015, the DRHS officially became a certified No-Kill Shelter in 2017. We care for thousands of animals each year – as an open-admission shelter, no animal is ever turned away!

Where do all the animals come from?
Most of the animals in our shelter are surrendered by their owners or are strays that have not been claimed. We also partner with various organizations around the United States, having dogs transported to our shelter a few times a month.

Does the DRHS only accept dogs and cats?
We accept any domestic animal including but not limited to guinea pigs, turtles, snakes, and fish. We are able to assist any animal that enters our door!

What are the Five Freedoms?
Freedom from hunger and thirst by ready access to fresh water and diet to maintain health and vigor. Freedom from discomfort by providing an appropriate environment including shelter and a comfortable resting area. Freedom from pain, injury or disease by prevention or rapid diagnosis and treatment. Freedom to express normal behavior by providing sufficient space, proper facilities and company of the animal’s own kind. Freedom from fear and distress by ensuring conditions and treatment which avoid mental suffering.

What is a Service Enterprise?
The DRHS has been certified by Points of Light, the world’s largest organization dedicated to volunteer service, as a Service Enterprise! Achieving Service Enterprise certification is a prestigious accomplishment for an organization. Certification signifies that organizations have the capability and management expertise to leverage the time and talent of volunteers and better meet our mission

Can I bring my family or friends to join while I volunteer?
Unfortunately, volunteers are asked not to bring guests to volunteer unless they have also completed the application, liability waiver, AND New Volunteer Orientation.

Programs & Services

Adoptions
The DRHS cares for thousands of animals each year. Adoption fees vary based on species and age. To adopt, a prospective adopter will fill out an adoption application, which is screened by staff. All cats and dogs adopted from the DRHS are spayed/neutered, current on vaccinations, and microchipped.

Rehoming by Appointment
Rehoming by appointment gives us an opportunity to meet with the previous owners, gathering medical and behavioral information, providing resources, and offering alternatives to rehoming.

Lost & Found
The DRHS returns hundreds of lost animals to their owners each year. This is mainly due to rabies tags and the new DRHS policy to microchip every cat or dog adopted out. The DRHS creates lost reports for those who call in with a lost pet. The DRHS is contracted with the City of Dubuque, Peosta, Epworth, Asbury, Dyersville, and Dubuque, Dubuque County, Grant and Jo Daviess County to house stray animals.

Volunteer Program
Volunteers help maintain the functionality of our shelter. Volunteers assist with animal care and enrichment, bathing/grooming, fostering, fundraising events, off-site activities and much more.

Humane Education/Community Outreach
Staff and volunteers perform community presentations about companion animal safety, care, and responsibility for all grade levels. The DRHS conducts youth programs (i.e. Kids & Critters Summer Camp), and serves as an information resource for various community events.

Pet Pantry
Financial difficulties due to job loss or change in family status are among the top reasons why owners rehome their pets. The DRHS continually strives to find ways to keep pets with their families. All pet food and cat litter donated to the shelter supports our Pet Pantry program, allowing community members to receive assistance.

Hadley’s Dog Park
Hadley's Dog Park is the first and only private, member only dog park in the Dubuque Community. The park is open year-round and features over an acre of green space allowing dogs to run, play, and socialize. The park is located on Kinsey’s Campus at the Dubuque Regional Humane Society.
Incoming Animals

The DRHS has an open admission philosophy and therefore accepts all animals in our jurisdiction regardless of health, age, breed, or temperament. The DRHS only performs humane euthanasia for animals too ill or injured for treatment or those animals who pose a major health or safety risk to potential adopters.

Stray Animals- 57%
Stray animals are housed in areas not accessible to the public. Stray animals are held for several days, giving owners ample time to claim them before being evaluated and prepared for adoption.

Rehomed Animals- 14%
Community members may call our shelter to schedule an appointment with our Rehoming Consultant to discuss their situation, receive alternatives to rehoming, and ultimately offer the DRHS vital animal information to find success in their future home.

Transported Animals-29%
The DRHS works with different national animal welfare organizations to transfer animals from overpopulated shelters to our community where they have greater opportunity to find loving homes.

Other Animals
The DRHS handles a wide variety of companion animals, in addition to dogs and cats. Frequently receiving hamsters, Guinea pigs, rabbits, birds, snakes, and fish. We also accept reptiles, amphibians, etc. Sometimes the DRHS receives exotic animals we are unable to care for, in which case alternative rescue groups are contacted.

Restricted Animals
Some animals may not be available for adoption. These include animals with any infectious disease, or animals whose temperament has not been tested. We cannot predict when or if these animals will become available. If a prospective adopter should show interest in one of these animals please direct them to the front desk.
